

CLUB ALIENO

**URBAN
SUITE**

SYNOPSIS

Urban Suite brings the intimacy of everyday life into the heart of urban space, creating a poetic short circuit between what belongs to the private sphere and what we share each day.

Unexpected presences and actions out of context briefly alter the landscape we move through, inviting us to pause and see familiar places with fresh eyes. The performers inhabit corners of the city as if they were rooms in their own home: a kitchen, a bedroom, a living room.

Each action is carried out with the ease and focus of someone in their own private space, oblivious to the rush of the city and the gaze of others.

An invitation to reflect on the boundary between public and private, shared and personal space.

Urban Suite questions the distracted, functional way we inhabit the city, proposing a slow, tender and intimate way of occupying it. The audience witnesses a suspended moment in which intimacy becomes visible and the city, for a moment, becomes home.

THE COLLECTIVE

CLUB ALIENO

Club Alieno is an Italian artistic collective founded by dancers and choreographers Valeria Fiorini and Eleonora Gennari. Its practice brings together contemporary dance, electronic music, light, space and performance, in dialogue with the work of lighting designer Antonio Rinaldi and original electronic compositions by KINO.

The collective explores a poetics of plurality, connecting artists and performers with different bodies, experiences and languages. This diversity is not a theme to depict, but a generative principle that guides artistic creation and opens up new forms of relationship.
